

I received information that Sinclair Broadcasting is forcing their stations to air an anti-Kerry documentary just before the election. Are you going to allow this to happen?

Is our supposed democracy being programmed by the power of a large company? Is this an unbiased opinion that serves the general public or an unfair take over of our public broadcast system?

Please do not allow this to happen. This is a clear infringement of rights and must not be allowed.

Thank You for taking action on this matter.
